INTRODUCTION

To the reader:

This volume of election results from the 1986 Primary and General Elections is one of a series of publications from the office of the Secretary of State, going back over many years, that give the official tallies for all statewide contests. Candidates, scholars, politicians and others interested in the conduct of elections in Vermont have found these books critically valuable in their efforts to understand the ever changing nature of the Vermont political environment.

This volume is based on the official returns of votes submitted to the Secretary of State by the various canvassing committees following each of the two major elections of 1986 and it includes the votes for the two proposed constitutional amendments. In some cases our totals differ slightly from the totals in the state canvass reports prepared at the time of the elections, correcting discrepancies discovered as we prepared this publication.

We are proud to announce that this year's volume includes the results of the races for the State Senate and House of Representatives, including the recount totals and the results of the one recessed election. We have had many requests for these statistics over the years, and owe our thanks for including them in this year's book to Catherine Simpson, Director of Elections.

A couple of comments on format are in order. When the word "scattering" appears, it describes votes for write-in candidates. If you are interested in more specifics on this subject, please contact us and we will be happy to supply them to you.

Because of the number of uncontested races in this year's primary election, we have chosen to condense these reports. Instead of printing a separate report for each primary candidate, all the candidates running in uncontested races in a party have been grouped together and printed in a single report.

If you have comments on this volume or suggestions for future publications, we would be happy to hear from you.

Sincerely,

James H. Douglas
